

## ICEC 2014: Building Global Bridges, Providing Quality Cancer Education

The 2014 International Cancer Education Conference is co-organized by the American Association for Cancer Education (AACE), the Cancer Patient Education Network (CPEN), and the European Association for Cancer Education (EACE). These organizations will collaboratively host the International Cancer Education Conference in Clearwater Beach, Florida, from 22-25 October 2014. The conference is jointly provided/co-provided by USF Health and AACE. We look forward to seeing you in Clearwater Beach! Please check this website for further details as they become available.

The meeting has been developed to meet the changing needs of oncology professionals who educate others as part of their practice. We trust that the 2014 International Cancer Education Conference in Clearwater Beach, Florida, will renew enthusiasm and provide an excellent showcase of learning opportunities from faculty around the world.

### ACTIVITY DESCRIPTION

Cancer education plays a key role in the nation's war to end cancer suffering and death. This conference provides a showcase of validated educational models, provides a multidisciplinary forum for the dissemination of cancer education research, facilitates interdisciplinary networking, and enhances attendees' educational and evaluation skills. The goal of the conference organizers is to expand the cancer education community from which we can learn and share best practices in cancer education, making best use of our educational efforts.

### TARGET AUDIENCE

Surgeons, residents, physicians, nurses, educators and other allied health specialists, including medical, nursing and allied health professional students, patient advocates, hospital administrators, and social workers.

Attendance is encouraged by all those focused on cancer education including: oncologists, primary care physicians, radiologists, surgeons, nurses, allied health professionals, social workers, patient/health educators, medical anthropologists, librarians and public health professionals. Previous participants have included all of the above drawn from the world's academic medical centers and cancer care organizations responsible for developing, implementing, and evaluating cancer education curricula, research and programs.
