

## European Association for Cancer Education

### Aims

To improve clinical outcomes through the education and training of individuals involved within the cancer and palliative care continuum and to facilitate communication and networking between those involved in cancer education.

### Target Audience

Cancer educators, physicians, nurses, palliative care physicians, oncologists, dentists, social workers, students, educationalists, psychologists, researchers, other allied health professionals, staff members of comprehensive cancer centres and/or cancer societies/leagues.

### Fields of cancer education

Undergraduate and postgraduate medical, nursing, dental, cancer education, public and patient cancer education.

### EACE Objectives

To improve interaction between policy makers, educators and those involved in the continuum of care of patients with cancer

To support the translation of theoretical concepts into clinical care, for the benefit of patients, through research and education

To provide training that enables individual educators and practitioners to:

develop their practice using evidence-based approaches

identify their needs for personal and professional development

develop the skills necessary for reflective practice

determine the effectiveness of their educational interventions

### Activities & Range of Services Available

Hold an annual scientific meeting

Publish with the AACE, the Journal of Cancer Education four times a year

Have an exchange agreement with the AACE so that members of either association can attend scientific meetings at a reduced registration fee

Identify members with similar interests and facilitate opportunities for networking
